

Learning

AGILE SOLUTIONS FOR YOUR BUSINESS

What is EcosAgile Learning?

It is a modern solution for the management of training processes: web-based, fast, complete and ready to use; you can manage sessions, resources and costs, distribute courses through Self Service, in your training/meeting rooms or externally, manage skills, build questionnaires to evaluate courses and what has been learnt and the level of integration with the assessment and development processes.

It has integrated analytics reporting to support the immediate and timely use of the managed information. It provides reports and other supporting functions to facilitate the management of funded training.

It is seamlessly integrated with all the other products in the EcosAgile suite for immediate interaction with any other required process.

Why EcosAgile Learning?

Flexible : unlike its competitors, it features a unique level of flexibility to handle specific current needs and future requirements with ease, without worrying about compromising product updates and in the certainty that your investment is always improving over time

Innovative : it is one of the most advanced platforms available on the market, it can be activated immediately on the Cloud without concerns regarding infrastructure, management and updates; alternatively it can be installed in your DataCenter

Immediate : the data can be easily uploaded via xls and all your information can always be exported at any time with a single click without complications; a specific configurable integration component allows you to easily overcome the frequent integration problems found in competing solutions

Who is it designed for

It is for private or public companies and associations that need to improve the efficiency and effectiveness of their training and skills development processes.

EcosAgile is innovative and complete and will allow you to attain the missing skills that provoke inefficiencies and limitations in your current operations.

**Don't make any decisions without having
assessed why EcosAgile Learning is so different**

SOLUTIONS

INNOVATIVE solutions

A unique and innovative platform

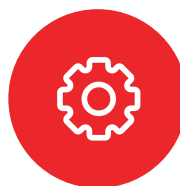

F O R E N T E R P R I S E

The EcosAgile platform is based on an innovative technology that manages objects and relationships through a configuration approach, without complex and expensive project, programming and testing phases.

The product can be customized with simplicity and functionality is constantly improved. A unique feature is the fact that **customizations and release upgrades coexist without additional costs and risks**, adding value to the investment over time.

The same end user can manage changes over time in a simple and autonomous fashion, without any programming.

The **solution** is fully **web based** and is delivered in **Cloud/SaaS mode** or in **on-Premise/License Agreement mode**.

MAXIMUM ACCESSIBILITY, WEB 2.0

Easy extension of the information/procedures to management and staff through the Self-Service functions and workflows already bundled in the standard product.

NATIVE HANDLING DEPH HISTORICAL DATA

The correlation between the current and historical information is handled natively by the package, with significant benefits in terms of lower cost, higher quality and better integrity of the information managed.

POWERFUL AND STATE OF THE ART

Multi-company, multi-country, multi-language (including Unicode management) and multi-currency. Careful security/privacy management. Powerful workflow engine.

MAXIMUM WEALTH OF INFORMATION

Any report, list or grid can be exported to excel. Default charts, flexible analyses and analytics rapidly provide all the information needed to work with your business data.

Advantages

Extraordinarily flexible and easy to use

Complete and integrated, even with existing company software and always updated to the latest version

Quality for Total Cost of Ownership that competitors cannot match
