### What is EcosAgile Assets & Benefits ?

EcosAgile Assets & Benefits is a rich set of features aimed at all aspects of the management of corporate assets and benefits, throughout their life cycle, from allocation to return, including maintenance, compliance, repairs and replacements, and all the other phases associated with a particular business asset.

With EcosAgile Assets & Benefits, you always know the status and availability of assets and the management of all the associated requirements such as deadlines, insurance, registration fees, servicing and inspection is made simple with timetables and specific notifications, both for internal assets (printers, multifunction devices, furniture, etc.) and those allocated to individual employees or work groups.

The application can be easily integrated with enterprise ERP systems and/or other administrative systems. The product is fully integrated with all the other products in the EcosAgile suite.

EFFICIENCY &

### Why EcosAgile Assets & Benefits ?

EcosAgile Assets & Benefits is:

**Complete:** able to track every specific business asset and its features: Vehicles, Tollway transponders/Viacard, Fuel cards, Mobile Phones, Sims, Computers/Laptops, EDC/Data Center, Printers/Faxes, Projectors, Tablets, Software, Furniture/Furnishings, etc.

**Manages the entire process:** the system allows you to manage allocation requests and rules, workflow approvals, allocations, notifications, support, reallocations, retrieval, etc.

**Configurable:** you can monitor and enforce compliance with rules/corporate allocation policies; the features are widely modifiable and adaptable to many different uses, and any new company assets and benefits can be easily configured independently by the client, thanks to its flexibility and adaptability

**Easy to integrate:** any available lists can be easily loaded and always exported directly by the user

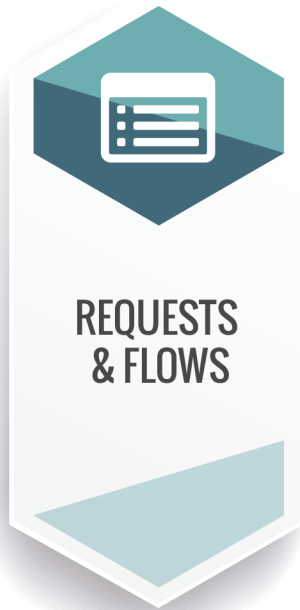

EcosAgile can be implemented immediately and can drastically simplify management, resulting in cost savings and improvements to the quality of management.

**Don't make any decisions without having assessed why EcosAgile Assets & Benefits is so different.**

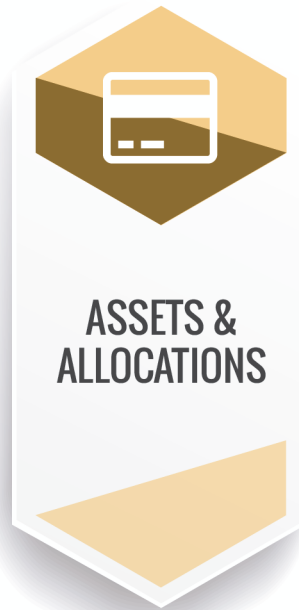

# EcosAgile

## INNOVATIVE solutions

### A unique and innovative platform

F O R E N T E R P R I S E

The EcosAgile platform is based on an innovative technology that manages objects and relationships through a configuration approach, without complex and expensive project, programming and testing phases.

The product can be customized with simplicity and functionality is constantly improved. A unique feature is the fact that **customizations and release upgrades coexist without additional costs and risks**, adding value to the investment over time.

The same end user can manage changes over time in a simple and autonomous fashion, without any programming.

The **solution** is fully **web based** and is delivered in **Cloud/SaaS mode** or in **on-Premise/License Agreement mode**.

### Advantages

-  Extraordinarily flexible and easy to use
-  Complete and integrated, even with existing company software and always updated to the latest version
-  Quality for Total Cost of Ownership that competitors cannot match

#### MAXIMUM ACCESSIBILITY, WEB 2.0

Easy extension of the information/procedures to management and staff through the Self-Service functions and workflows already bundled in the standard product.

#### NATIVE HANDLING DEPH HISTORICAL DATA

The correlation between the current and historical information is handled natively by the package, with significant benefits in terms of lower cost, higher quality and better integrity of the information managed.

#### POWERFUL AND STATE OF THE ART

Multi-company, multi-country, multi-language (including Unicode management) and multi-currency. Careful security/privacy management. Powerful workflow engine.

#### MAXIMUM WEALTH OF INFORMATION

Any report, list or grid can be exported to excel. Default charts, flexible analyses and analytics rapidly provide all the information needed to work with your business data.
