

INNOVATIVE solutions

FOR ENTERPRISE

eProject Timesheet at your fingertips

eProject is the solution **"at your fingertips"** for the actual **working hours on activity** registration suitable for any company, from **SMEs** to the **multinationals**. Besides recording the working hours on Timesheet, with eProject you can send the holidays and time-off request, with one click.

The one and only App that allows the company to have the working hours and the absences situation always under control and to have **in real-time data ready to be transmitted to the Payroll** and to the competent departments.

Everything will be made in a more simple way, with a higher reliability and at lower costs.

 It is **compatible** with your current Enterprise System or it is included with the EcosAgile System

 **Multilingual**, with different active translations
Precise with Time sync

SMART WORKING

eProject aims for the company future, by saying **goodbye to the excel sheets**. It proposes itself as a **smart, fast and user friendly** solution for the timesheet compilation with the working hours on activity, which can be filled in directly from your smartphone.

MANAGEMENT CONTROL

eProject allows to manage your company with a perspective of **saving and growth**. It is the revolutionary app **all-in-one**, that allows you to record the working hours on timesheet and to send at the same time the holidays request, time-off request and other absences requests.

DATA ALWAYS AVAILABLE

eProject allows to send the Company in real time data concerning the working hours on project and the absences request for the entire authorization process management. **Data are always exportable** and can be easily transmitted to the **Payroll and Administrative System**.
