Consultants & Agency workers

ENTERPRISE
SOLUTIONS

What is EcosAgile Consultants ?

Public services and private companies frequently require consultants and temporary contract workers from employment agencies.

EcosAgile Consultants & Agency Workers helps you manage these professionals, who frequently work with public and private concerns, often on a repetitive basis.

It seamlessly integrates with all the other products in the EcosAgile suite, and can therefore interact with your other business processes as required.

REGULATORY
COMPLIANCE
TEMPLATE

Why EcosAgile Consultants ?

The application has advanced functions for the management of all of these types of workers, particularly **external consultants, suppliers, temporary/agency workers, freelance, on call**, etc.

Some companies have extended this service to **integrate with major Employment Agencies**, which directly receive requests from the EcosAgile application and proceed with the screening process for candidates who match the required profile.

The entire flow is supported, from the collection of needs to statutory compliance checks (for automatic verification of the risks associated with the type of work), from screening to the management of candidatures and the creation of contracts based on defined templates.

Who is it designed for

EcosAgile Consultants & Agency Workers is a valuable tool for businesses, government agencies, professional firms and associations that need external professionals and agency staff.

Handling these aspects through EcosAgile allows for **immediate simplification and cost savings**, and facilitates compliance checking.

**Don't make any decisions without
having assessed why EcosAgile
Consultants & Agency Workers
is so different.**

INNOVATIVE solutions

A unique and innovative platform

F O R E N T E R P R I S E

The EcosAgile platform is based on an innovative technology that manages objects and relationships through a configuration approach, without complex and expensive project, programming and testing phases.

The product can be customized with simplicity and functionality is constantly improved. A unique feature is the fact that **customizations and release upgrades coexist without additional costs and risks**, adding value to the investment over time.

The same end user can manage changes over time in a simple and autonomous fashion, without any programming.

The **solution** is fully **web based** and is delivered in **Cloud/SaaS mode** or in **on-Premise/License Agreement mode**.

Advantages

- ✓ Extraordinarily flexible and easy to use
- ✓ Complete and integrated, even with existing company software and always updated to the latest version
- ✓ Quality for Total Cost of Ownership that competitors cannot match

MAXIMUM ACCESSIBILITY, WEB 2.0

Easy extension of the information/procedures to management and staff through the Self-Service functions and workflows already bundled in the standard product.

NATIVE HANDLING DEPH HISTORICAL DATA

The correlation between the current and historical information is handled natively by the package, with significant benefits in terms of lower cost, higher quality and better integrity of the information managed.

POWERFUL AND STATE OF THE ART

Multi-company, multi-country, multi-language (including Unicode management) and multi-currency. Careful security/privacy management. Powerful workflow engine.

MAXIMUM WEALTH OF INFORMATION

Any report, list or grid can be exported to excel. Default charts, flexible analyses and analytics rapidly provide all the information needed to work with your business data.
