EcosAgile Expense the app for personnel expense reports

Expense is the perfect solution to record the mobile expense report **in a few second**: you can attach the receipts and the documents pictures and then you can send it.

Thanks to the App all the receipts, the supporting documentation of the employees are **at your fingertips**, **dematerialised** and **stored properly in one single place** with the possibility to implement company policies and control expense limits and thresholds in accordance with the company position.

The employees appreciate its capacity to streamline the processes and possibility to be used immediately, it also helps the company to process data in a more **simple**, **highly-reliable** and **cost-efficient way.**

- ✓ **Open to integration with Ecosagile Fleet management** and Company Property for car fleet management

- ✓ Multi currency with **automatic exchange rates conversion always automatically updated** to all the currencies of the world

- ✓ **Prepaid corporate cards** for employees with usage policy and **without additional costs**

Available on the **App Store**

Get it on **Google play**

A.I., ADVANCED OCR & QR CODE

Expense is integrated with smart scan that elaborates all types of receipts using artificial intelligence algorithms, **machine learning** algorithms and the **advanced OCR** for the classification and retrive.
No installation required, no need for specific skills or additional infrastructure requirement.

POWERFUL WITH EXPENSE SYNC

Expense is synchronized with back-end and it is possible to register expenses when offline and manage the photos also with a low bandwidth and no signal. **Infographics and reporting** are available via APP and WEB, with analysis and pivot tables useful to perform customised and dynamic analysis, **bank reconciliation** reports and automatic notifications are at your disposal as well.

DEMATERIALIZATION AND STORAGE

Expense is the only APP that is able to verify automatically the quality of an expense document and weather it is adequate for digital storage. Guarantees dematerialisation of expense documents for **proper management, archiving and subsequent control in compliance with legal requirements.**
