

EcosAgile

eMeeting 10" Panel and web-based system for booking workspaces and meetings

eMeeting is the solution for scheduling meetings and business activities that ensures management and booking of company workspaces.

Workspaces include meeting rooms, conference rooms, shared coworking spaces, training rooms and all those areas that can be booked for meetings or other company activities.

eMeeting is appreciated because it takes only a few seconds to schedule a meeting, to extend it, reduce the duration or cancel it; it also provides in real time the information about availability of meeting rooms through shared calendar and facilitates the choice of the conference room thanks to the room details that contains all the features, accessories and tools available.

Facilitates management of security and control procedures for shared company areas

Clock and calendar containing details for each meeting, duration and participants

Workspace-integrated solution for booking and management of workstations, parking spaces and canteens

MEETINGS MANAGEMENT

eMeeting maximizes the use of the available workspace, ensuring the number of participants does not exceed the limit, the duration of stay is observed and it also facilitates the distance required by security procedures. The detailed statistics on room usage and saturation (hourly, weekly, per person, per meeting room) are available for company management.

REAL TIME AND CLOUD

Thanks to a simple Wi-Fi or Ethernet connection, it is integrated with the EcosAgile Cloud booking system to offer full functionality and data access via web from anywhere.

SECURE TOUCH SCREEN DEVICE

eMeeting improves productivity: thanks to the display and luminous indications there will be no more interruptions of meetings, no one will disturb you during the meeting or "stole your room". It guarantees efficient booking management with just a few clicks by the organiser, in compliance with safety standards which are secured by NFC badge recognition or by a unique access code.
