Document & Signature

“Cloud Document Management
Electronic Signature and Storage”

ENTERPRISE

SOLUTIONS

What is EcosAgile Document & Signature ?

EcosAgile Document & Signature is a **complete Document Management System tool**, i.e. an application designed for the simplified management of electronic documents and the necessary management processes.

It enables the acquisition, organization, management, signing, processing, availability and sharing of electronic documents, files and forms, securely and according to fully configurable flows and rules.

EcosAgile Document & Signature optimizes and automates all document management processes to enable a secure and efficient exchange of documents with all stakeholders, be they employees, co-workers, customers, suppliers, partners, ensuring better data quality and lower operating costs.

DIGITALIZED DOCUMENT MANAGEMENT

Digitization of documents, information and processes in an integrated manner with controlled and secure access on cloud-based management software. Document sharing between multiple offices, bulk upload and document approval functionalities.

DEMATERIALIZATION AND STORAGE

Complete '**paperless**' management with replacement of paper media and archives by computerized documents and electronic storage. Immediate and continuous access to documents at any time and from anywhere.

ELECTRONIC SIGNATURE

Signing documents electronically simplifies the entire administrative process of manual signature, increasing efficiency and reducing costs. Electronic signature, **simple**, **advanced** or **qualified**, equivalent to a paper signature, giving legal validity to documents.

Scegli il tipo di documento d'identità e carica il file

Carta d'identità Passaporto Permesso di soggiorno

- Assicurati che il tuo documento d'identità non sia scaduto
- Assicurati che il codice MRZ (se presente) sia perfettamente visibile
- Formato: PDF, JPEG, PNG - Dimensione massima: 10 Mb

Carta d'identità: Nessun file selezionato 

Firma Elettronica - scegli il livello di sicurezza

A seconda del livello di rischio della tua richiesta di firma, puoi scegliere il livello di sicurezza più adatto.

Semplice
I firmatari leggono e cliccano su "firma" per finalizzare il processo.
Ideale per firmare documenti interni o contratti con un basso livello di rischio.

OTP
I firmatari saranno autenticati da un codice OTP inviato sul telefono.
Ideale per la maggior parte delle richieste di firma.

Avanzata
I firmatari saranno autenticati con codice OTP ed effettueranno una verifica immediata e intelligente dell'identità. Ideale per documenti sensibili o ad alto rischio.

Why EcosAgile Document & Signature ?

EcosAgile Document & Signature is a comprehensive suite of practical and technologically advanced features such as Document Management, Electronic Signature and Storage that allows with simplicity and immediacy to minimize the use of print, paper and unstructured communication in business processes, making the document and signature process smooth and efficient.

Online storage of documents and regulation-compliant electronic storage enables the elimination of paper archives, freeing up space, reducing costs and saving time.

EcosAgile Document & Signature ensures immediate and continuous access to documents with improved business efficiency and productivity, enhanced security and greater environmental sustainability.
