

INNOVATIVE solutions

FOR ENTERPRISE

eTime Manager attendance tracking and working hours planning

eTime Manager is an APP for **attendance tracking, absence management and working hours planning** for personnel who works in stores, construction sites or work team.

It is an ideal solution for companies with off site personnel located in multiple working areas and organised in teams managed by a single manager.

eTime Manager is particularly valued by our clients because **only one device** is needed to manage and plan working hours of an entire group.

 It is possible to integrate APP into existing presence management software or use the complete HRMS solution provided by EcosAgile

 Compliant with the regulations issued by **Data Protection Authority**, Geolocation is not required.

ONLY ONE DEVICE FOR ENTIRE TEAM

eTime Manager allows company to cut costs significantly. Only **one device controlled by a manager** is sufficient to track attendance of each work team.

WORK HOURS PLANNING

eTime Manager allows to **plan working hours and shifts** directly via APP or using cloud-based online database with administrative modules.

ABSENCES AND OVERTIMES

eTime Manager provides a precise overview of the weekly and daily employee attendance with immediate possibility to **reschedule working hours in case of absences and plan overtime.**
